

Padded Back Rest

Item Code and Description

- a. GB1191-GR . . . Padded Back Rest (gray)

General Product Description

- a. a U-shaped steel grab bar with pad affixed
- b. mount to wall above toilet tank
- c. helps prevent a toilet user from exerting weight or force against a toilet tank. Such weight or force can potentially break the connection between the toilet tank and the toilet base.

Physical Characteristics

- a. grab bar made of steel with rust inhibitor treatment
- b. grab bar epoxy-resin coated
- c. grab bar color: white
- d. grab bar diameter: 1 $\frac{3}{8}$ "
- e. pad made of closed-cell polyurethane foam
- f. pad color: gray
- g. overall projection from wall: 10 $\frac{3}{4}$ "
- h. installation hardware not included

Performance Characteristics

- a. provides a margin of safety for toilet tank connection as user sits down on toilet and forcefully leans backward, potentially damaging the connection between the tank and base
- b. aids users during transfer on and off toilet
- c. pad will not absorb water
- d. installation requires substantial, well secured blocking in or on wall
- e. use #10 fasteners to mount back rest to wall blocking (fastener type and length vary depending on wall materials, thickness of wall, and other factors); stainless steel fasteners recommended in wet area locations

Other Information

- a. 5-year limited warranty when installed in commercial settings
- b. 10-year limited warranty when installed in residential settings
- c. see AKW warranty for details
