

ShuffleDEK® Drain Cover

Item Code and Description

- SC9005-SD
- stainless steel drain cover, 84" long

General Product Description

- use as continuous drain cover for two TB4747-SD ShuffleDEKs installed side by side
- replaces the drain covers that come with the formers
- fill with tile to provide an attractive cover for the drain gully and outlet
- when installed, cover is surrounded by a narrow gap to allow drainage

Physical Characteristics

- measures 2" wide x 72" long
- made of durable, no-rust stainless steel
- sidewalls of cover are barely visible once former is tiled completely

Performance Characteristics

- coat drain cover tray with Tank/10 waterproofing compound; once waterproofing is dry, use modified thinset to install tile
- set cover on lugs to position over drain gully; gravity holds cover in place
- cover allows an approximately 1/4"-wide gap all around for effective water drainage and a discreet, minimalist appearance

Compliance

- NA

Other Information

- Nicholls & Clarke limited lifetime warranty
